COMPRESSED NATURAL GAS SERVICE  
INDIVIDUAL METERING**

**Availability**

Natural gas service under this rate schedule is available to any individually metered commercial or industrial customer for providing gas service to a compressed natural gas facility, at any point on Company's system, but only where adequate capacity presently exists, or can be provided in accordance with the rules of the Oklahoma Corporation Commission, or the system of another pipeline with respect to which the Company has an agreement with such pipeline or is taking gas pursuant to a tariff for such service but only to the extent that: (1) the meter for such customer exists at December 31, 2009; (2) service is required by law; (3) service is agreed to by such pipeline. The Company reserves the right to establish minimum levels of annual consumption and other contractual provisions for each customer as the criteria for installing compression facilities and to discontinue gas service under this rate schedule and remove all Company-owned equipment with thirty (30) days written notice to the Customer if, in the Company's opinion, the agreed upon volumes are not being taken or contractual provisions are not being fulfilled to justify the required investment in the Customer's installation.
