CONSERVATION PROGRAM

Booster Heater

Restaurant operators can choose a high-efficiency, environmentally clean and cost-effective solution to providing the final rinse for sanitizing dishes. The gas booster heater's high temperature rinse eliminates chemical use and minimizes dish-drying time, lowers dish inventory requirements and increases the dishwashing production rate. Since it eliminates the electric booster heater, it also significantly reduces electric demand charges. The precise, consistent water temperatures decrease pre-wash dish preparation, saving labor and hot water. Gas booster heaters are available in under-the-counter and wall-mounted models.

Incentive

\$500 per Unit

Min Efficiency

80% TE

Program Guidelines

1. All Texas Gas Service (TGS) commercial customers located within the City of Austin and Sunset Valley, with a gas rate code of B12, B1B, B1C or B1D, are eligible for the program.
2. Proposed gas booster heater equipment must meet or exceed the Thermal Efficiency (TE) required.
3. The incentive applies to under-the-counter and wall-mounted booster heaters.
4. Incentives are available for existing commercial, facility expansion and new construction.
5. All work must be performed in accordance with all applicable national, state, and local codes, and must be passed by certified plumbing inspector and all other applicable inspection.
6. Submit a completed incentive application along with any required attachments.
7. After reviewing and approving your application, a Letter of Intent, which is a contractual offer, stating the incentive payments for which you are eligible will be issued. The Texas Gas Service Conservation Program makes no commitment or payments before issuing the Letter of Intent.
8. You have 90 days from the date of your Letter of Intent to complete the installation. After 90 days, the Letter of Intent becomes invalid. A written request stating the reason for the delay will be required to approve an extension. Extensions will depend on the availability of funds.
9. The program guidelines and incentive levels are subject to change at any time, without notice and are available on a first come, first served basis.
10. If you fail the inspection because of non-compliance with program guidelines and requirements, you have 15 days to make the required modifications. Two inspections are allowed per application.
11. All incentives are made payable directly to the commercial end-user.
12. The incentive payment for each item cannot exceed 50% of the total equipment cost.

- ◆ **Incentive programs are available on a first-come, first-served basis. The funding and/or guidelines for the programs may be changed or discontinued at any time without notice.**
