Elk Creek Pipeline - Wyoming

Overview
To transport the growing supply of natural gas liquids (NGLs) in the U.S., ONEOK is building the Elk Creek Pipeline. The project is an approximately 900-mile, 20-inch diameter pipeline that will have the capacity to transport up to 240,000 barrels per day (bpd) of unfractionated NGLs from eastern Montana to Bushton, Kansas. The project is expected to be completed by the end of 2019.

Elk Creek will originate in Richland County, Montana, traversing eastern Montana, Wyoming and northeast Colorado before ending in Rice County, Kansas. The preliminary route parallels ONEOK’s existing Bakken NGL Pipeline and the majority of the Overland Pass Pipeline, of which ONEOK owns 50 percent.

Project Schedule

Beginning of 2018
• Right-of-way acquisition
• Civil, environmental and engineering surveys
• Permit preparation

Spring/Summer 2018
• Community outreach
• Permitting activities
• Construction begins in some areas

End of 2019
• Pipeline in service

Wyoming by the Numbers

Elk Creek Pipeline Details
• Approximately 308 miles
• Crossing five counties - Crook, Weston, Niobrara, Goshen and Laramie

ONEOK’s Economic Impact
• Total number of employees - 19 (as of March 2018)
• 2017 payroll - $3,562,064
